Sales Mode is interactive iPad-friendly solar proposal software designed for the modern sales team. With Sales Mode, reps can follow a simple, guided design workflow to deliver an engaging homeowner experience that closes deals. Sales Mode takes the guesswork out of solar quoting to help your sales team sell with confidence and ease.

Cut Down on Change Orders

Reduce manual errors with built-in pricing, cost adders, incentives, and discounts.

Empower your sales team to easily create accurate and error-free proposals that your engineering team can stand behind.

Stop Selling, Start Educating

Win customer buy-in by showing them exactly what their home will look like with solar.

Build trust and credibility with interactive presentations that use tools like LIDAR, irradiance, and sunpath animations.

Close On the First Visit

Finalize the details on the spot with automated contract generation and integrated e-signature options.

Close with a professional-grade Live Proposal to keep your customers engaged after the solar consultation.

Premium Add-Ons

Accelerate your sales growth even further with two powerful premium add-on products: Aurora AI and Contract Manager.

 Detecting roof structure...

Aurora AI

An address, one month's utility bill, and 30 seconds are all you need to generate a 3D model for your customer using Aurora's proprietary technology.

Sales Mode with Aurora AI is the answer for busy reps with no time to lose on 3D design. With the click of a button, Aurora AI can generate a 3D model almost instantly, helping you capture customer interest and move the deal forward as quickly as possible.

Contract Manager

Streamline the closing process with a fully-integrated e-signature solution, including contracts that auto-populate customer information.

- Send contracts for signature with just a couple of clicks.
- Get your contracts signed from anywhere, on any mobile device.
- Manage deals more efficiently with document tracking and time-stamps.
